“ Sad you had to leave, but guess it was time. Haven't seen you in a while, But we still had a good time when we did. David said you was a good friend, but a pain in his butt most of the time when you two worked together. Prayers for your family that is left behind. May God have MERCY on your soul. David and Teresa Parker.

David and Teresa Parker - March 15, 2021 at 05:03 PM

“ Since the first meeting of you, it's was an adventure. You accepted me for who I was and you've been there for me with your advice, opinions, and everything in between. You very quickly became a father to me, and for the last 17yrs I've treasured every minute. I will now hold those memories deep in my heart for the rest of my life. I love you and I will deeply miss you. Rest in the sweetest of peace, and until we meet again, fly high and watch over our family!

“ Wayne, you were a great guy. I have fond memories of our little clique running around and raising hell when we all were in school. I don't think I ever said “Thank you for your service to our country.” Rest now, we will meet again. You will always be in my heart. -Susi-
