“ *Our deepest sympathies to Chester's family and friends. Chester and my dad grew up two houses away from each other in Tariffville, CT where they were best friends. They both joined the army and later graduated in the same class at UConn. Chester was best man at my parents' wedding. The two remained in touch throughout their long lives and always remembered to call each other on their birthdays which were a month apart - up through their 92nd celebrations. Their conversations always put a smile on my dad's face and he would reminisce about the "old days". I also enjoyed talking with Chester this past year since my dad's passing and I will miss him.*

*Our condolences,*

“ *Chester was our colleague in the Division of Water in the Department for Environmental Protection, Natural Resources and Environmental Protection Cabinet. He was in our groundwater branch. I have many fond memories of Chester. It was nice working with him.*
