“ So sorry for your loss. James and I were friends when we were in high school. We had some great times together. Riding dirt bikes and just hanging out. I remember a time when we were going to build a soap box car. We were looking for wood in his step dads wood pile, when suddenly a swarm of bees came up. We took off running in the house. About 30 min late one of the neighborhood kids came up and insisted the Jame give him some wood for his soapbox car. James looked at me, we both smiles and told him he could have all he wanted from the wood pile. A few minutes later we see him running and swatting as we stood inside watching and laughing to tears. I will always remember that moment. James was always a good friend. He will be missed greatly.
