“ *My mind is still reeling and my heart is broken. I just talked to you, we talked about "if" you retired, Alaska, your garden, your family... I just cant believe that you are gone! I cannot grasp that I can never have lunch with you, or ask your opinion or share a joke. No more sarcastic comments? No more deep chuckles? You have been one of my best friends for 24 years! I love you dearly and I will miss you so much. And yes I still have your ECU student I.D. I almost wore it to your visitation... LOL I was afraid you might try to take it from me. Your family and friends are in my prayers. May you be at peace.*

“ John: Although we were not born brothers I loved you as one. You always kept me well grounded with your honest comments to what ever the situation or my bright ideas might be. I will truly miss our friendship and glad I was able to amass great memories with you and all of our close friends over the past 30 years. Your famous remarks of "Earth to Greg, we share this planet with about 5 and a half Billion other people so you might wanna think about that" will always ring true. Rest in Peace my Dear Friend. Greg
