“ *The news of Maya's passing shook our world as we read in disbelief the entries on FB and then the State Journal notice. It seems surreal that little Maya could truly be gone at such a young age.*

*Maya grew up with our daughters and because of the activities they did together; we were able to be around Maya a lot. She was a joy! Full of life!! She was afraid of nothing and curious about everything. Her smile was contagious. Her excitement was exhilarating. She was fun, carefree, sweet, loving, and so much more.*

*It breaks our hearts to acknowledge your loss as parents and to think of the pain your hearts feel. We wish this was a bad dream that you could awaken from and have your sweet Maya with you again.*

*Our family is truly saddened by your loss and want you to know we think of you often and have you wrapped in our prayers. Maya touched many people who we are certain will be coming forth to share their wonderful memories with you. We pray those stories will help fill your voids in some small way.*

*All our love to you,  
Arnold, Rhonda and girls*
