“ *Nancy was my best friend. We were more like sisters than best friends. She and her family were so kind to me. She brought joy to my life. I had never experienced a friendship like hers. I know I never will. We shared good times and she made me laugh. I loved her so much. I will miss her very much. I am thankful to have known her. Rip Nancy. I will never forget our friendship. I will cherish it forever. Amen*
