“ *When we were little my Dads mother lived next door to the Peyton's. Robbie was older than us so she kept us kids in line when we would play to make sure we were not doing something we shouldn't. She always did it with love but also knew she had that certain voice she could use that we would listen. She was always checking and visiting with my grandmother and I loved her for that. Not a lot of people her age would really care about a older women but she did. She was a loving and caring person and she will be missed. But I know that her Mom and Dad were there in heaven to greet her.*

You will be missed by many and I will be one of them Alice Bryant.
